

# **LSU SCHOOL OF DENTISTRY**

## **LIBRARY EXPLORER**

### **SPRING 2000**

#### **PAY-FOR-PRINT SYSTEM INSTALLED**

The dental library has installed a XeroxConnect Pay-for-Print (P4P) system on all public and lab computers in the library. Computer Services allots each student 100 free pages per semester, and allows faculty and postgraduate students to print for free. Once students exceed their limit, they must select the P4P printer and use their LSUHSC ID or a cash card (**not** the same card currently used for photocopiers) to release their print jobs. At the PC, users assign a temporary ID and password to each print job, and then go to the print release station where they insert their card and type in the ID to see the list of their jobs. The system deducts 10¢ for each page printed. The bookstore sells cash cards for \$1.00 each; value in increments of \$1.00, up to \$22.00, can be added to IDs and cards at a “mini-manager” machine in the library.

Users should remember to click on File and Print on the tool bar to change from the default printer HP 4050 to the PAYPRINTSERVER1. Simply clicking on the printer icon will not give you this option. Detailed instruction sheets are found at the circulation desk or at the mini-manager, and library staff members are always happy to assist users with this new printer system.

#### **LSUHSC FACULTY PUBLICATIONS DATABASE**

This newsletter regularly contains a listing of recent publications by dental school faculty. A larger, searchable database of publications by all LSUHSC faculty members is on the Internet in **Reference Web Poster** <http://melvil.lsumc.edu/ris/risweb.isa>. Faculty publications have been divided by year into databases, with 1998-2000 currently available. You can search by author, title, journal title abbreviation, medical subject headings, and keywords. The *Reference Web Poster* record includes abstracts for articles downloaded from MEDLINE. Other types of indexed publications are books, book chapters, meeting abstracts, letters to the editor, and editorials.

In addition to the three faculty publications databases, **Reference Web Poster** includes the *Dental Materials Reviews* database discussed in the Winter 2000 issue of *Library Explorer*, as well as *Louisiana Morbidity Report* and *Newspaper Clipping File* databases. The *Morbidity Report* indexes articles related to health issues in Louisiana and the newspaper file indexes articles about LSUHSC, its faculty, staff, and students. All databases in *Reference Web Poster* are created and maintained by LSUHSC library staff.

#### **INTERLIBRARY LOAN REQUEST FORM ONLINE**

An interlibrary loan (ILL) request form is now online for patrons wishing to request books and journal articles not available in the LSUHSC libraries. The form can be saved as a Word file, filled out, and sent as an email attachment to the library. Dental school faculty, staff, and students may send their completed forms directly to Julie Schiavo ([jschia@lsumc.edu](mailto:jschia@lsumc.edu)), ILL librarian at the dental school. A PDF version can be printed out, filled in, and sent to the library via campus mail (Box 229). Of course, patrons are still welcomed to bring their forms to the library or come to the library to request one. The form can be accessed via the Isché Library home page at <http://www.lsuhsd.edu/library/NO/> or reached more directly at <http://www.lsuhsd.edu/library/NO/ill.html>.

## **USEFUL WEB SITES**

Over the past few months, the library staff has been searching for new, interesting, and useful Web sites to present to the LSUSD faculty, students, and staff. Here is the first installment of what we have found. Links to all of these sites can be found on our Web page.

### **Martindale's Health Science Guide – 2000**

<http://www-sci.lib.uci.edu/~martindale/Dental.html>

This site is the self-named "Virtual" Dental Center "Mega site". It includes links to dental and medical dictionaries, online dental news and journals, research centers, and images. It also includes case studies, courses, tutorials, and tests by specialty. This Web site is huge and contains a large amount of extraneous information that has nothing to do with dentistry. Once you get past the superfluous links the site can be very useful.

### **Sybertooth**

<http://www.sybertooth.com>

By accessing this site, you can retrieve information on upcoming conferences, events, and online CE courses throughout the world. The events are listed by location worldwide.

### **Idealibrary**

<http://www.idealibrary.com>

This Web site lists almost all the journals that LSUHSC subscribes to in full-text, online format. In order to fully access this site, you must be using an LSUHSC computer account. Click on the words "My Profile" in the upper left hand section of the screen. You should then get a message saying that you are an authorized user. The longest list of available journals is under the section labeled "Subscription to LSU HSC New Orleans Collection (SCAMeL)"; click on "List Journals"

### **Center for Disease Control's Oral Health Program**

<http://www.cdc.gov/nccdphp/oh>

The CDC's Oral Health Program Web site contains basic program fact sheets on issues such as dental water quality, fluoridation, and toothbrush procedures in schools. It also contains the specifics of the Oral Health Program, links to oral-health related articles in CDC publications, and related links to other CDC programs.

If you have any suggestions of useful Web sites you have found, please let us know. You can email them to me at [jschia@lsuonc.edu](mailto:jschia@lsuonc.edu) or you may send them to the library.

## ***RECENT ACQUISITIONS IN THE LSUSD LIBRARY***

Walkenbach, John. **Microsoft Excel 2000 Bible**. Foster City, Calif., IDG Books Worldwide, 1999. (HF 5548.4.M523 W15m 1999)

Devesa, Susan S. **Atlas of cancer mortality in the United States, 1950-94**. Bethesda, Md., National Institutes of Health, National Cancer Institute, 1999. (QZ 17 D49a 1999)

Requa-Clark, Barbara S. **Applied pharmacology for the dental hygienist**. 4th ed. St. Louis, Mosby, 2000. (QV 50 R29a 2000)
