Winter 2001

OVID & PubMed Classes Scheduled

During the next 3 months, the dental librarians will offer MEDLINE classes in both OVID and PubMed. The dates of these 3 classes, which will be held in the library conference room, are:

Ovid: Monday, February 19, 3 - 4 p.m.

PubMed: Tuesday, March 20, 9 -10 a.m.

Ovid: Wednesday, April 25, 10 -11 a.m.

Please call the library at 38550 or send e-mail to dentlib@lsuhsc.edu to sign up for one of these sessions. If you are interested in a course, but unable to attend at the scheduled time, please let us know.

New Cards for Photocopiers & Printers

Late last year, LSUHSC Auxiliary Enterprises began the process of switching from the Vendamat copycards (with maroon print) to a new LSUHSC cash card (with black print). The new card may be used in the dental library computer lab pay printer and both library coin-op photocopiers. To ease transition to the new cards, one photocopier in the dental library will remain with the old system until the end of January. The bookstore sells the cash cards for \$1.00 each.

One may also add money to LSUHSC IDs with a magnetic stripe on the back, using them instead of the cash card to activate printers and photocopiers. For photocopiers, the ID or cash card is inserted into the slot in the vend mechanism and money is inserted into the dollar or coin slot. The card will then be credited and copies may be made for \$.07 each.

For use in the printer, one must first format the ID or card in the "mini-manager" machine. Dollar bills up to \$20.00 may then be fed into the machine and added to the card or ID. An ID or cash card carries a maximum value of \$22.00. The mini-manager does not give change and it does not accept coins.

Both the ID and cash card work in the pay printers and photocopiers in the Isché Medical Library as well. Although Auxiliary Enterprises manages the card system and pay printers, library staff members will be happy to try to answer any questions or solve problems with the equipment or cards.

Useful Web Sites

The Free Medical Journals Site

www.freemedicaljournals.com

This web site provides links to several health sciences-related journal web sites. Access to these journals is free to anyone from any computer. Journals may be searched by specialty or by name. The site also notes any journal that was formerly listed on the page as free but is no longer available. There are eight dental journals listed including *Advances in Dental Research*, *Critical Reviews in Oral Biology and Medicine*, and *Angle*

Orthodontist. Also available are *Cleft Palate – Craniofacial Journal Online*, *Microbiology, CA – A Cancer Journal for Clinicians*, and the *Journal of Biochemistry*, just to name a few.

Pain.com Information on Pain

www.pain.com

This site is hosted by the Dannemiller Memorial Educational Foundation, which specializes in pain education and is one of the leading Internet resources on pain management. It contains a library of pain-related articles, CME opportunities, online slide shows, discussion boards, and chat rooms. On the Professional Information side of this web site, there are dozens of links to other sites, listings of societies, foundations, and medical publications. There are also a number of reports and news articles.

Clinical Research Associates: Clinicians guide to dental products and techniques

www.cranews.com

CRA (Clinical Research Associates) is a non-profit organization that serves dentists by evaluating dental materials, devices, and concepts for efficacy and clinical usefulness. Findings are published as rapidly as possible in the *CRA Newsletter* (ask at the dental library circulation desk for issues) and online. This site functions as a supplement to the *CRA Newsletter*. It lists the most recent CRA findings and contains links to some of their older research reports. These are listed under the "Additional Study Details" menu. From this site, you can also subscribe to the *CRA Newsletter* in paper or online form.
