Quintessence Publications Donated to the Dental Library

For many years, the LSU School of Dentistry has been the beneficiary of a generous donation by Quintessence Publishing Company. In 1991, at the 10th International Symposium on Ceramics, this international publisher of high-quality dental books and journals announced that it would contribute all of its past and future publications to our dental library in honor of Dr. John McLean. In response, the library designated all Quintessence publications as the McLean Collection.

Dr. McLean, a researcher and private practitioner in London, was consulting professor in fixed prosthodontics and biomaterials at LSUSD and well known as the inventor of aluminous porcelain and glass cermet-ionomer cements. His classic two-volume work, *The Science and Art of Dental Ceramics*, published by Quintessence in 1979 and 1980, is still widely consulted.

LSUSD is quite fortunate to be the ongoing recipient of this invaluable gift from Quintessence. The cost of books and journal subscriptions donated by Quintessence last year totalled over \$4,000.00.

We receive 11 journal subscriptions:

Chinese Journal of Dental Research
International Journal of Adult Orthodontics & Orthognathic Surgery
International Journal of Computerized Dentistry
International Journal of Oral & Maxillofacial Implants
International Journal of Periodontics & Restorative Dentistry
International Journal of Prosthodontics
Journal of Adhesive Dentistry
Journal of Oral Laser Applications
Journal of Orofacial Pain
Quintessence International
World Journal of Orthodontics

Last year we added 24 Quintessence monographs to the library:

Reyneke, Johan P. **Essentials of orthognathic surgery.**
Eliades, George. **Dental materials in vivo: aging and related phenomena.**
Carranza, Fermin. **History of periodontology.**
Adolfi, Dario. **Natural esthetics.**
Chapple, Ian L.C. **Understanding periodontal diseases: assessment and diagnostic procedures in practice.**
Whitworth, John M. **Rational root canal treatment in practice.**
Brunton, Paul A. **Decision-making in operative dentistry.**
Horner, Keith. **Interpreting dental radiographs.**
Meechan, John G. **Practical dental local anaesthesia.**
Allen, P. Finbarr. **Teeth for life for older adults.**
Rattan, Raj. **The business of dentistry.**
Marx, Robert E. **Oral and maxillofacial pathology: a rationale for diagnosis.**
Axelsson, Per. **Diagnosis and risk prediction of periodontal diseases.**

Wilson, Thomas G. **Fundamentals of periodontics**. 2nd ed
Scuzzo, Giuseppe. **Invisible orthodontics: current concepts and solutions in lingual orthodontics**.
Phoenix, Rodney D. **Stewart's clinical removable partial prosthodontics**. 3rd ed.
Davarpanah, Mithridade. **Clinical manual of implant dentistry**.
Pollack, Burton. **Law and risk management in dental practice**.
Kataoka, Shigeo. **Nature's morphology**.
Inglehart, Marita R. **Oral health-related quality of life**.
Magne, Pascal. **Bonded porcelain restoration in the anterior dentition: a biomimetic approach**.
O'Brien, William J. **Dental materials and their selection**. 3rd ed.
Hargreaves, Kenneth M. **Seltzer & Bender's dental pulp**.
Mjör, Ivar A. **Pulp-dentin biology in restorative dentistry**.

See "[Recent Acquisitions](#)" in this newsletter issue for the 10 newest Quintessence titles in the McLean Collection. Quintessence Publishing Company merits the acknowledgment of LSUSD faculty and students for its generosity and role in maintaining the quality of our library collection.

BioMed Central

The LSUHSC Library in New Orleans is now an institutional member of [BioMed Central](#), publisher of open-access peer-reviewed online journals. Articles appear in BioMed Central journals soon after manuscripts are accepted, and authors retain copyright to their articles. All of the BioMed Central journals are available free online and are indexed in PubMed with links to the full-text. Because of the library membership in BioMed Central, LSUHSC authors are exempt from the \$500.00 processing fee for each article accepted for publication.

One of the 80+ journals is [BMC Oral Health](#), which publishes original research articles in the prevention, diagnosis and management of disorders of the mouth, teeth and gums, as well as related molecular genetics, pathophysiology, and epidemiology. Take advantage of the LSUHSC membership and submit your next research article to this peer-reviewed journal. This membership will be monitored for LSUHSC publications and will be discontinued if not used. The membership is partially paid for by the South Central Academic Medical Libraries consortia.

For more information about BioMed Central, visit <http://www.biomedcentral.com/info/a>

New Databases for LSUHSC Searchers

Many of the databases available to LSUHSC users result from the library's membership in LOUIS, a consortium of Louisiana academic libraries. Among the significant changes that LOUIS made this year to its list of subscriptions was the addition of [EBSCOhost](#), an aggregator of databases. **Biological Abstracts**, **ERIC**, and **PsychInfo** are familiar databases to LSUHSC searchers; they were previously searched via Ovid. A number of other databases in EBSCOhost, such as **Serials Directory**, which replaced Ulrich's, **Academic Search Premier**, with full-text to 4,000 scholarly publications, and **Clinical Pharmacology**, are new to LSUHSC.

Databases currently in [Ovid](#) are MEDLINE, MEDLINE In-Process & Other Non-Indexed Citations, Health & Psychosocial Instruments, Mental Measurements Yearbook, Journals@Ovid Full Text, and Your Journals@Ovid. MEDLINE In-Process & Other Non-Indexed Citations, previously called PreMEDLINE, has new entries to the database that have not yet been indexed with medical subject headings as well as non-indexed articles not related to biomedicine.

For more information on LSUHSC search systems and databases, go to <http://www.lsuhs.edu/no/library/ss&d/default.htm> on the library web site.

Finding Journal Articles Online

The LSUHSC library has made it easy for you to access online journals by adding links in Innopac (the library catalog), Ovid, and PubMed. If the library subscribes to a journal, the Innopac record indicates if free full-text is available; a link to the journal web site allows you to locate and print the PDF format of an article. Records for article citations in Ovid and PubMed include links to either the full-text on the publisher's web site or to the Innopac record for the journal. Although the method of access to full-text varies with each journal and each database, Innopac records always contain a link indicating when full-text is available for LSUHSC patrons.

Remote Access to Databases & Full-text Journals

To access many of the library's electronic resources from PC's not on the LSUHSC network, login via remote access is required. ScienceDirect, EBSCOhost, the Cochrane Library, and full-text journals are examples of these resources. Because the current, more secure Virtual Private Network (VPN) does not work for remote access to library resources, the library has implemented a new mechanism called Web Access Management (WAM).

When LSUHSC library patrons attempt to retrieve an online resource from a remote location, they will be prompted to login by providing the following:

- Name (first name last name)
- Library barcode number (with or without spaces)
- Pin (create it the first time you login).

If you are interested in remote access to databases and journals, check your LSUHSC ID to confirm that a library barcode is on the back. Please note that this is not the same barcode used to check-out clinic records. If you need a barcode, visit either the dental library or the Isché Medical Library, and if you have trouble connecting to an electronic resource, call the dental library at 504-619-8550.

Recent Acquisitions

Circulating and Reserve Books

Langman, Jan. **Langman's medical embryology**. 9th ed. Balt., Lippincott Williams & Wilkins, 2004. (QS 604 L26m 2004) *with CD-ROM*

Berne, Robert M. **Physiology**. 5th ed. St. Louis, Mosby, 2004. (QT 4 B45p 2004)

Damjanov, Ian. **Pathology: a color atlas**. St. Louis, Mosby, 2000. (QZ 17 D18p 2000)

Zakrzewska, Joanna M. **Assessment and management of orofacial pain**. Amsterdam; Boston, Elsevier, 2002. Pain research and clinical management, v.14 (WE 705 Za24 2002) *at the Isché Library*

Martin, John H. **Neuroanatomy: text and atlas**. 3rd ed. New York, McGraw-Hill, 2003. (WL 30 M36n 2003)

Nelson, Waldo E. **Nelson's textbook of pediatrics**. 17th ed. Phila., Saunders, 2004. (WS 100 N33 2004)

American Dental Education Association. **Faculty salary survey summary report: guaranteed annual salary: 2001-2002; total compensation: 2000-2001**. Washington, D.C., ADEA Publications, 2003. (WU 19 Am3f 2003)

American Dental Association. Council on Dental Practice. **Basic training II: for new clinical personnel**. Chicago, 2003. (WU 77 Am3ba 2003)
